Student Testimonials

"The best part about SIATech was the teachers & staff because they really do care about education and your wellbeing and helps you through everything you need."

Danielle B.

"It helped to know that I had teachers who supported me and actually cared about me. I like how when I had a question I could ask and have one on one help"

Aaliyah G.

"The best part about SIATech was how you learned at your own pace but got the help you needed when asked."

Israel M.

About the SIATech Alumni Impact Report

In Spring 2025 SIATech High School surveyed more than 1,000 previous graduates to hear what it is about SIATech high schools that made a difference for them. More than 100 graduates participated in the survey. This report shares their responses, which demonstrates SIATech's life changing impact on the at-risk students it serves. Since SIATech serves 16-24 year old students through two innovative high school programs (classroom-based in partnership with Job Corps and an independent study high school model) some results are disaggregated by program.

SIATech High Schools' framework supports its students during their entire educational journey, from pre-enrollment through the SIATech Way to post-exit alumni supports. In 2024-2025, more than 2500 students were served in SIATech's program in grades 10-12. And, in this school year, 615+ graduates earned their WASC-accredited diplomas and moved on to college and/or careers.

"SIATech allowed me to work at my own pace while still being able to work a job and earn a steady income. This ultimately helped me with my time management also being confident with completing assignments before their due date."

*"My advice to these students [thinking about going to SIATech] is: **SIATech is a great school and you will end up learning so many interesting skills on top of graduating.** The friends and bonds you make there will be lifelong if that is what you choose!!"*

Favorite Features

Being able to **learn at my own pace** and the flexibility of not having to be on campus every day really helped me because I was struggling mentally and had a hard time motivating myself to get my work done and go to school.

Independent Study student ★★★★★

[My teachers] helped me stayed on track of my assignments as well as just supporting me with daily life struggles I was going through

Job Corps student ★★★★★

If I had to pick one thing that was the best part I would say it being so **flexible to your schedule** and **the teachers are the best.**

Independent Study student

What worked best for me at SIATech was **the one on one help.**

Job Corps student

I was able to work and do homework **quietly and in peace.**

Alumni Advice

Stay focused and don't let others discourage you. **You're there for a reason.**

Job Corps student ★★★★★

If you are struggling in a "normal" school, go to SIATech. The school made sure I was able to graduate at my own pace.

Independent Study student ★★★★★

Focus on your goals and ask for help when you need it. Don't get nervous!

Job Corps student ★★★★★

Take advantage of the help and the time. **There are so many opportunities and good support.**

Independent Study student

Take this opportunity to not only invest in your education but your overall future. **SIATech is not just a school it's a community built to support you no matter your circumstances.** If I can do it so can you!
