

California Department of Education School Accountability Report Card Reported Using Data from the 2014-15 School Year

Published During 2015-16

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement - Most Recent Year

The School for Integrated Academics and Technologies (SIATech) is a network of charter high school campuses in California focused on helping students get back in school and back on-track to graduation. The mission of SIATech is to provide a premier high school dropout recovery program engaging students through relationship-focused, high-tech, and rigorous learning experiences resulting in "Real Learning for Real Life." The school was founded in 2004 and operates in partnership with Department of Labor's Job Corps program and Workforce Innovation and Opportunity Act (WIOA) locations. SIATech school sites are in the following areas: El Centro, Indio, Inland Empire, Long Beach, Los Angeles, Moreno Valley, North County (Oceanside), Perris, Sacramento, San Diego, San Jose, South Bay (Chula Vista), Treasure Island (San Francisco).

Students at SIATech are offered "Real Learning for Real Life," with an opportunity to complete their high school education in a motivational, academically challenging environment. Standards-based academic learning is integrated in real-world, high-tech applications as the program focuses on literacy, numeracy, technology, and workplace readiness skills. Academic knowledge integrated into state-of-the-art technologies and real-world software applications are used within a professional, work-like setting to prepare students for success in the workforce and/or further academic training. The goal is to improve learning opportunities for the severely at-risk students enabling them to both earn a high school diploma and succeed in entering vocational careers, military service, and postsecondary education.

SIATech schools offer a curriculum that includes UC approved a-g courses available to all students. UC utilizes "a-g" subject requirements to ensure that students have attained a body of general knowledge that will provide breadth and perspective to new, more advanced study. SIATech students graduate ready for college and career.

School Facility Conditions and Planned Improvements - Most Recent Year

SIATech facilities and classrooms are located within the seven Job Corps Centers throughout California. The centers are each maintained by the contracting center operator. The SIATech San Jose Opportunity Youth Academy is a campus in partnership with the Santa Clara County Office of Education (SCCOE) and operates in classrooms within the Washington Community Center in San Jose. SIATech's many independent study high school locations have classrooms in facilities adjacent or within WIOA career centers. The facilities are kept in good or better condition. SIATech classrooms are equipped with office-like furniture for the students which include high-quality office chairs, desks, and ergonomic workstations complete with computer, keyboard, mouse, and other student supplies.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP], Science California Standards Tests); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

California Assessment of Student Performance and Progress Results for All Students (School Year 2014-15)

Subject	Percent of Students Meeting or Exceeding the State Standards

Career Technical Education Programs (School Year 2014-15)

SIATech's partnerships with Job Corps, SCCOE, and WIOA provide remarkable opportunities for integrating content areas with career technical learning. Team work and good communication with CTE instructors provides a setting for a flexible and responsive learning environment that provides the addressing of objective deemed necessary for success in the workplace. The expectation is for all students to learn the knowledge, skills, and attitudes necessary to be successful in today's technology-based economy. The Career Success Standards measures performance in the following areas: Workplace, Relationship and Ethics, Communications, Personal Growth and Development, Interpersonal Skills, Information Management, Multicultural Awareness, Career and Personal Planning, and Independent Living.

Elements of the curriculum are immersed in industry-standard technology, such as AutoCAD, a tool to learn and use math skills in classrooms that is also extensively used in constructions trades. Additional software tools, like Microsoft Office and Adobe Macromedia, provide students with skills that are necessary for success in higher education and can be applied in various professional fields. Career training opportunities for students range from culinary arts to telecommunications, business technology to carpentry, and landscaping.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject areas of English, mathematics, and physical education

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

Opportunities for Parental Involvement - Most Recent Year

SIATech students range in age from 16-24 and many students are adults. However, SIATech creates several opportunities for parental involvement for parents of students under age 18.

Parents are an important part of SIATech and may serve on the Board of Directors, site-based committees or as volunteers within each school site.

SIATech believes that the work and values of school should be extended into the home. As a result, the school makes various efforts to make parent partners in their children's education. These efforts include:

- Promoting parent responsibilities and involvement;
- Recognizing the importance of the community's historic, ethnic, linguistic, and/or cultural resources in generating interest in family involvement;
- Scheduling programs and activities in a flexible manner to reach a diverse group of families.

SIATech schools reach out to parents through written and telephone correspondence as well as its websites, e-newsletters, and social media.

Professional Development – Most Recent Three Years

SIATech's professional development program focuses on:

- Building capacity for systemic improvement of teaching and learning;
- Developing the instructional competencies essential to a standards-based curriculum;
- Creating a shared vision of a collegial learning community;
- Unity building for faculty;
- Methods of teaching and learning in an integrated curriculum;
- Recognizing different learning styles and planning lessons that incorporate them;
- Competencies, standards, and skills in the curriculum; and
- Assessment: How to design and use assessment methods to determine if a skill has been learning, a standard has been met, and/or a competency has been mastered.

SIATech schedules multiple staff workshops, seminars, interest group sessions, and individual sessions as appropriate for the topic, the school, and the faculty, throughout the year. In addition to professional development, staff is provided with in-service trainings which focus on introduction to the rules, procedures, and policies of SIATech as well as applicable district, state, and federal rules and regulations that school site personnel need to be aware of.
